Honorable Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22213-1450

RESPONSE TO RESTRICTION REQUIREMENT

Sir:

In response to the Office Action dated June 14, 2004, in which a restriction requirement was set forth, Applicants elect, with traverse, Group VII (claims 46-50 and 53) drawn to a method for screening drug candidates.

Applicants traverse the restriction requirement on the grounds that there is not a serious burden on the Examiner to examine the inventions carved into Groups I-XVI. All of the claims of Groups I-XVI relate to affecting a protein complex having AKT1. As such, searching the subject matter of one group necessarily searches the other group. The M.P.E.P. § 803 states that an application must be examined on its merits even if it has independent or distinct inventions, as long as a serious burden is not put upon the examiner to search and examine the application. Applicants respectfully request withdrawal of the restriction requirement.

It is not believed that any extension of time, or any fee is required in connection with this communication. However, if an extension of time (and extension fee) or fees are required, such an extension of time is hereby petitioned for and the Commissioner is authorized to charge any fees or credit any overpayment to Deposit Account No. 50-1627.

In re Application of: CIMBORA et al.
